

AANJANA

Company Details

Company Name: - Aanjana Art
Company Address: - Gala no 1, DN Singh Road No 2,
Love Ln, Hathibaug, Mazgaon,
Mumbai, Maharashtra, 400010.
Contact No: - Poonamchand Choudhary
(9930646212)
V.M Choudhary (9820288016)
Email I'D: - aanjanaarts@gmail.com
poonamchand.c@aanjana.in
Website:- aanjanaarts.in

About Us:

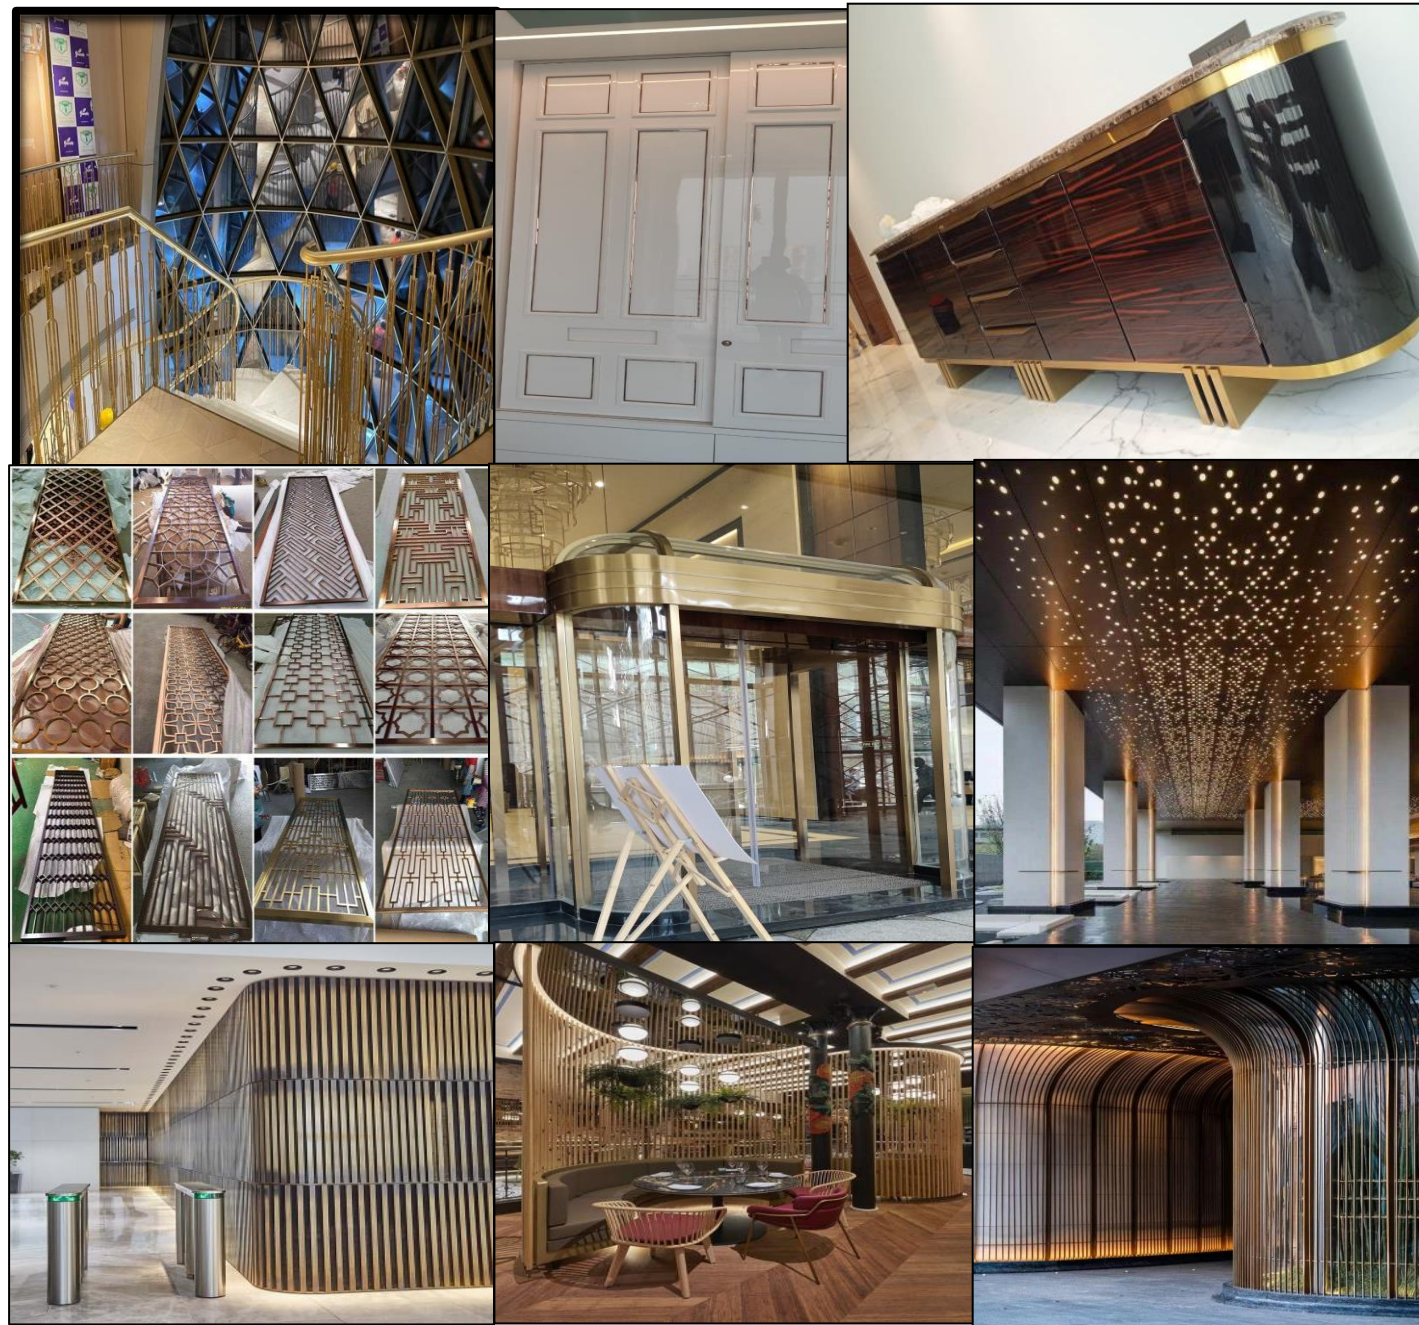

- Over 30 years of experience has taught us that process quality governs product quality. Art & design are the forefront whenever we are creating something. Creation for us is something as simple as one showing us a miniature version of something, then we get into the details and create the life size version of the same. We work with a skilled workforce of 60.
- We excel at a range of capabilities such as cutting, bending, welding, machining, finishing, handling, and logistics. What we also excel at is modular furniture. We have mastered the art of creating stylish yet functional furniture. Aanjana Group is uniquely positioned to meet the most demanding customer deadlines with a lean and efficient production line. To ensure that each project meets or exceeds our clients' expectations, we have an in-house manufacturing facility which allows us to keep up with our ever increasing customer service ethic and desire to provide superior finished products of unsurpassed quality and value.
- Our chairman Mr. Vagtaram Choudhary with his insight and experience had led us to the elite status we are at now. In fact, his efficient team management and constant inspirational words motivates the entire workforce and enables them to work in harmony.

What We Do Best

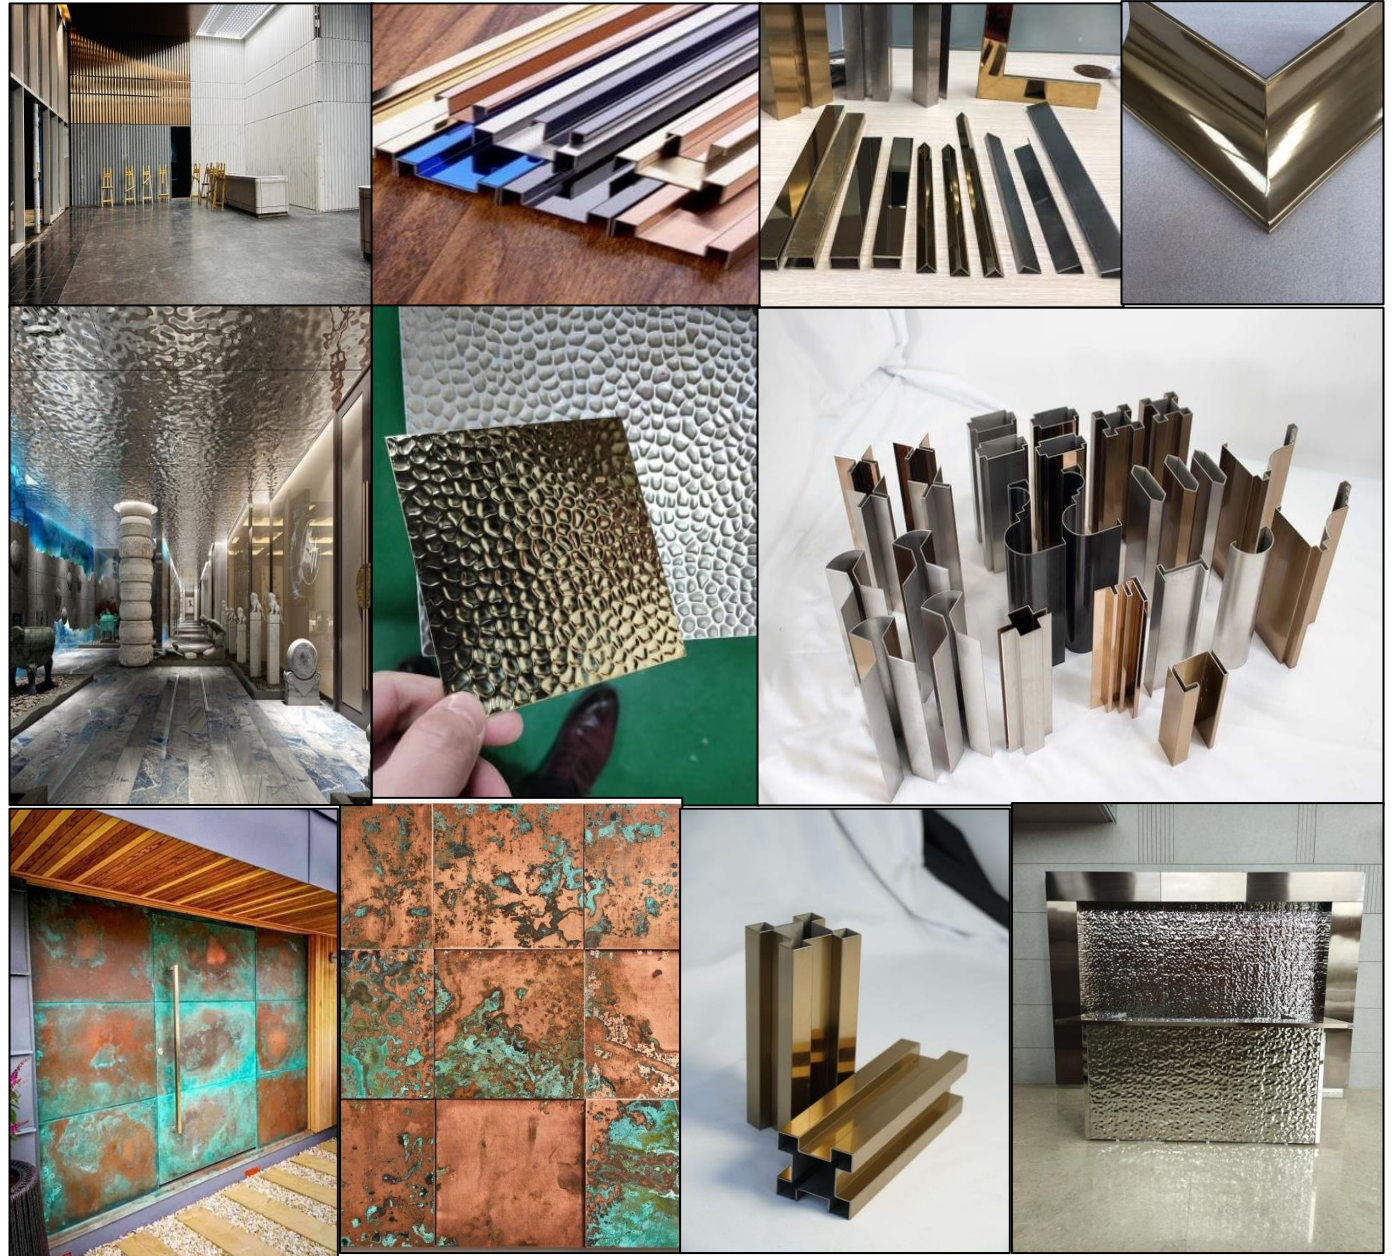

- Customized Metal Fabrication
- Customized Metal Profile
- Aluminum /Cast Iron Railing
- Modular Aluminum Railing
- Railing Systems
- Customized Door Handle
- Retail Display Solutions
- Hospitality

Product Design & Development

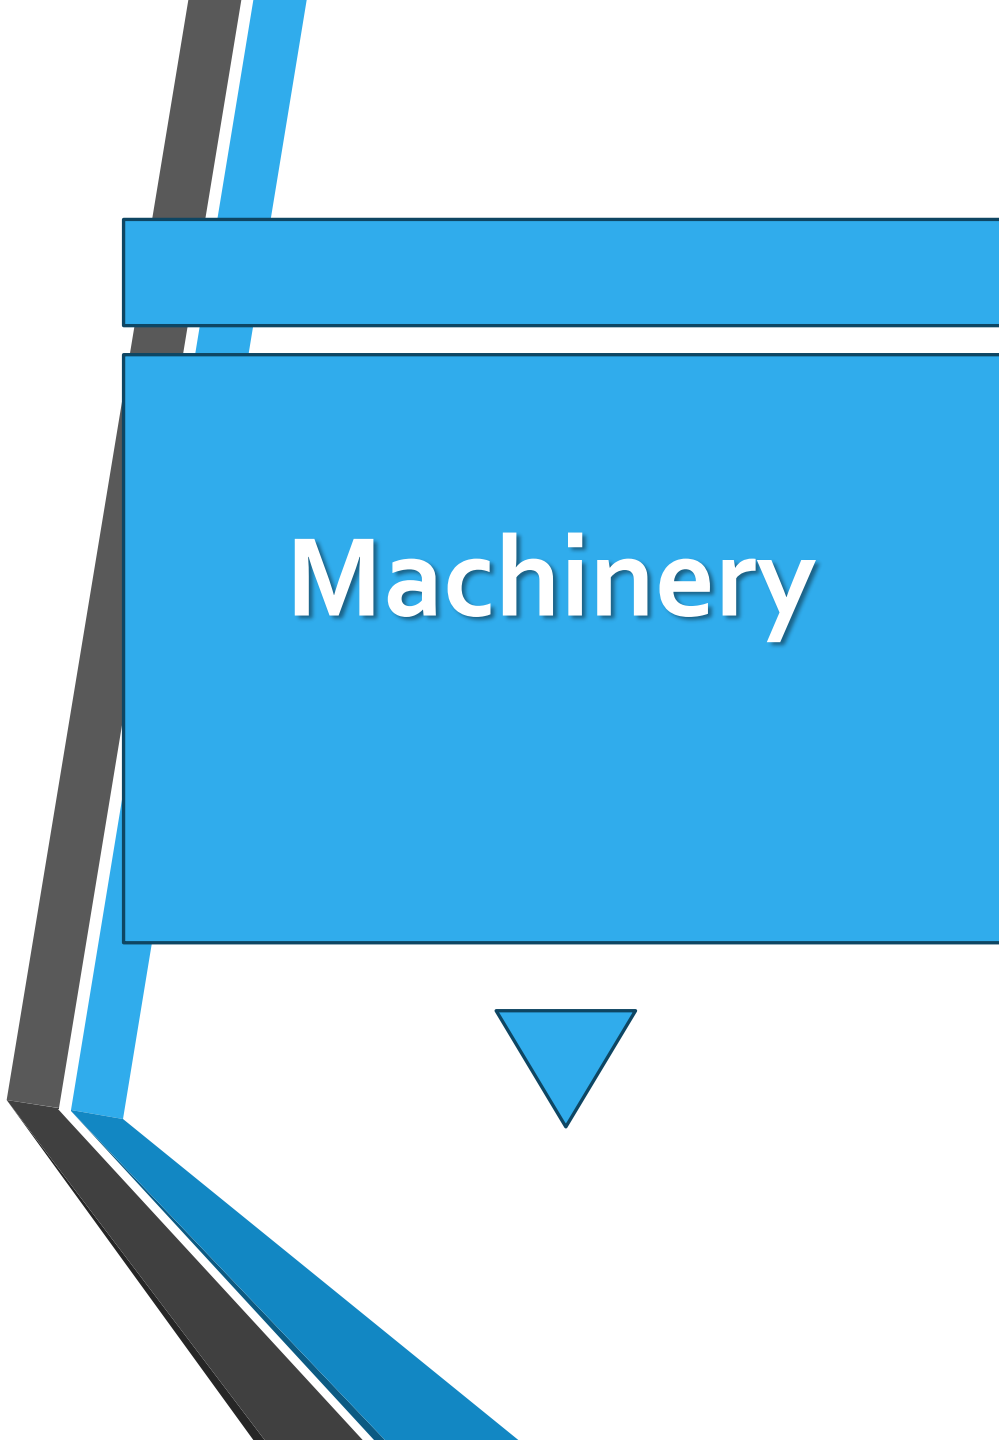

- We have been servicing customers since 3 decades now. Over the years one of the things, we learnt is creating a masterpiece out of our client's vision.
- Our creative process allows us to imagine, plan and manifest our client's vision into reality. It begins with sketching the structure, then ideating on execution, finding the right materials to pull the project off and
- There are times when our clients just provide us with a sketch or an idea and we have executed them with ease.

Store Designing

- We have been providing these 360 degree solutions to our clients where they hand us the keys to their stores and we look after every aspect of their store fabrication.
- We take care of the product placements, brand tags, furniture, paneling, basically all the aspects of a store. All you need to do is, tell us your brand guidelines, scope of your requirement and hand over the keys of the store.
- We will be handing the keys back to you of a completed store.

Machinery

- Metal Laser Cutting CNC Machine
- Sheet Shearing Machine
- Sheet Folding CNC Machine
- Tube & Pipe Bending CNC Machine
- Milling Machine
- Power Press
- Argon & Arc Welding Machine
- Lathe Machine
- Round Pipe Polish Machine
- Fix Polish Machine
- Rectangle & Square Pipe & Flat Polish Machine
- Powder Coating Seven Tank Process Plant
- Paint Booth
- Physical Vapor Deposition (PVD) ION Coating Machine
- Table Saw & Panel Saw Machine
- CNC Processing Centre (Centateq P100)
- Edge Banding Machine
- Hot & Cold Press
- Multi Boring Machine

Factory Building

Wooden Fabrication Unit

Metal Fabrication Unit

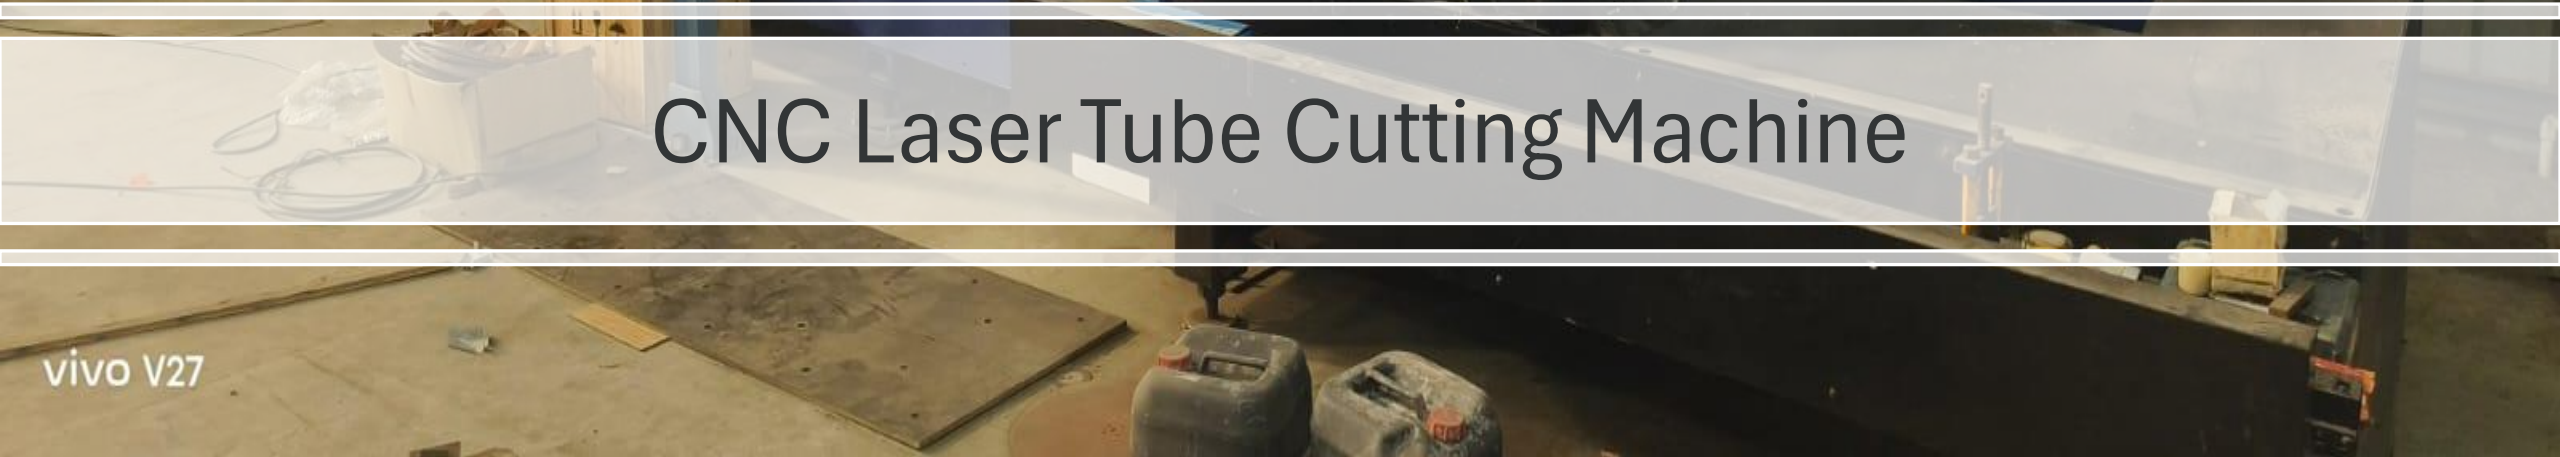

Powder-Coating & Paint Unit

10 Axis CNC Tube Bending Machine

CNC Laser Tube Cutting Machine

OTC Robotic Welding Machine

Hot Press

Panel Saw

5 Axis CNC Wooden Router

Laser Cutting Machine
